Kansas Commission on Governmental Standards and Conduct

Advisory Opinion No. 93-30

Written September 14, 1993, to John W. Campbell, Deputy Attorney General, Chief-Litigation Division, Office of the Attorney General, Topeka.

This opinion is in response to your letter of July 16, 1993, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the conflict of interest laws (K.S.A. 46-215 et seq.).

We note at the outset that the commission's jurisdiction on this matter is limited to the applicability of the above statute. Thus, whether some other common law, statutory system or agency rule and regulation relate to your question is not covered by this opinion.

Factual Situation

We understand you request this opinion in your capacity as the attorney for the Kansas Highway Patrol. You advise us that a situation has arisen where a trooper on his off duty hours offers his services as a safety consultant to the private sector, which includes some of the same individuals and businesses which he helps to regulate while on duty with the Patrol. This potential conflict has drawn the attention and concern of the federal agency which funds the trooper's position with the state. You also advise us that other troopers are expressing desires to be involved in off-duty businesses.

Ouestion

Does the provision of consultation services for valuable consideration by a state employee during his offduty hours, to persons or businesses which that employee helps to regulate in the course of his official duties, violate the Kansas State Governmental Ethics Act?

Opinion

There are three sections of the statute which may apply to the situation you describe.

K.S.A. 46-241 states:

No state officer or employee shall disclose or use confidential information acquired in the course of his or her official duties in order to further his or her own economic interest or those of any other person.

K.S.A. 46-238 states:

No state officer or employee or candidate for state office or associated person shall charge to or accept from a person known to have a special interest a price, fee, compensation or other consideration, for the sale or lease of any property or the furnishing of services which is substantially in excess of that which other persons in the same business or profession would charge in the ordinary course of business.

K.S.A. 46-286(a) states:

No state officer or employee in the officer's or employee's official capacity, shall participate directly in the licensure, inspection or administration or enforcement of any regulation of or in any contract with any outside organization with which the officer or employee holds a position.

The first section cited above is fairly self-explanatory. Confidential information obtained during official duties may not be used for a state officer or employee's financial gain. We have insufficient information to determine whether any of the information being used by the officer meets the definition of "confidential," although we would note that any information contained in statutes, rules or regulations or government publications would not meet this definition.

The second section places a restriction on the price which may be charged to someone with a special interest and limits that amount to an amount not substantially in excess of what others would charge. Please note this section does not speak to the issue of when it may be illegal to contract with someone with a special interest. That issue is covered by K.S.A. 46-286(a), the last section set out above.

In reviewing the application of K.S.A. 46-286(a) to the situation you have described, the issue is whether an individual who provides goods or services to an organization can be said to "hold a position" with the organization. Clearly, an employee of an organization, or a member of the board of directors, can be said to "hold a position." It is our opinion, however, that this language is not specific enough to extend to an independent business person who sells goods or services to an organization.

In sum, it is our opinion that K.S.A. 46-286(a) does not prohibit the situation you have described, but that there is a limitation on the amount that can be charged under K.S.A. 46-238 and the information the trooper may use under K.S.A. 46-241.

Please note that we express no opinion on whether the situation may constitute a conflict of interest under applicable federal law. It is clear, however, that no action should be taken by the trooper or others in similar situations until clearance is received from the appropriate federal agency since federal law certainly could preempt the limited prohibitions in the state law.

In addition, we note that a majority of this commission believes the activity, though legal, is inappropriate and will make a recommendation to the legislature to prohibit this activity in the future. Also, the Patrol itself may have or could impose policies against this behavior.

Advisory Opinion No. 93-31

Written September 14, 1993, to the Honorable Kay O'Connor, State Representative, Olathe.

This opinion is in response to your letter of August 30, 1993, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the Campaign Finance Act (K.S.A.

25-4101 et seq.) and the conflict of interest laws (K.S.A. 46-215 et seq.).

Factual Statement

We understand you request this opinion in your capacity as a state representative. You advise us that you wish to establish a bank account separate from your campaign fund to support the Kansas Voucher Fund legislation you will be introducing this next session. Contributions to this fund will be used to defray travel and communications expenses directly related to the specific legislation.

Question

We understand you to ask the following questions:

1) Under what circumstances should moneys received by you be considered campaign contributions?

2) May you solicit donations to a fund independent

from your campaign fund?

3) May you accept donations to a fund other than your campaign fund and, if so, with what limitations?

K.S.A. 25-4143(d)(1)(A) defines "contribution" in pertinent part to mean:

Any advance, conveyance, deposit, distribution, gift, loan or payment of money or any other thing of value made for the purpose of influencing the nomination or election of any individual to state or local office.

Applying this language to your first question, the issue becomes the intent of the donor. In those cases where a donor gives you money to assist you in getting out your message on the issue so you will be viewed favorably for re-election or election to another office, the donation is clearly a contribution and must be reported as such. This contribution is subject to the contribution limitations of \$500 per person per election period. Please note it is not illegal for you to solicit contributions for your campaign fund.

K.S.A. 46-236 relates to the second question of whether you may solicit contributions to the independent fund you have described.

That section states:

No state officer or employee or candidate for state office shall solicit any economic opportunity, gift, loan, gratuity, special discount, favor, hospitality, or service from any person known to have a special interest, under circumstances where such officer, employee or candidate knows or should know that a major purpose of the donor in granting the same could be to influence the performance of the official duties or prospective official duties of such officer, employee or candidate.

Except when a particular course of official action is to be followed as a condition thereon, this section shall not apply to (1) any contribution reported in compliance with the campaign finance act; (2) a commercially reasonable loan or other commercial transaction in the ordinary course of business; or (3) any solicitation for the benefit of any charitable organization which is required to

file a registration statement with the secretary of state pursuant to K.S.A. 17-1740 or which is exempted from filing such statement pursuant to K.S.A. 17-1741 or for the benefit of any educational institution or such institution's endowment association, if such association has qualified as a nonprofit organization under paragraph (3) of subsection (c) of section 501 of the internal revenue code of 1954, as amended.

It is clear to us that anyone who would contribute to this proposed fund has a "special interest" as defined by K.S.A. 46-228. Therefore, you may not solicit contributions to this fund.

This leads us to the third question regarding receipt of unsolicited donations. Here, K.S.A. 46-237(a) is in point.

That section states:

No state officer or employee or candidate for state office shall accept, or agree to accept any economic opportunity, gift, loan, gratuity, special discount, favor, hospitality, or service having an aggregate value of \$40 or more in any calendar year from any one person known to have a special interest, under circumstances where such person knows or should know that a major purpose of the donor is to influence such person in the performance of their official duties or prospective official duties.

Applying this language to the situation you have descibed, it is our opinion that unsolicited donations are limited to less than \$40 in any calendar year per donor.

In closing, we note that the solicitation prohibition in K.S.A. 46-236 and the limitation on unsolicited donations in K.S.A. 46-237 do not apply if you receive the funds as campaign contributions and properly report them. Thus, we suggest you receive the funds as campaign contributions.

Advisory Opinion No. 93-32

Written September 14, 1993, to Bob McDaneld, Administrator, Board of Emergency Medical Services, Topeka.

This opinion is in response to your letter of August 16, 1993, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state conflict of interest laws (K.S.A. 46-215 et seq.).

We note that the commission's jurisdiction on your question is limited to the above law. Thus, whether some other law on agency policy relates to your question is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as administrator for the Kansas Board of Emergency Medical Services. You advise us that currently the board contracts with adjunct staff members to assist in administering the state attendant certification examinations. Two of these adjunct staff members are also board members.

In order to comply with federal requirements under the Fair Labor Standards Act, adjunct staff members will become temporary, intermittent state employees on January 1, 1994. They will be classified as EMS Specialists I and will be appointed annually.

You also state that the administrator, not the board, is responsible for hiring and firing classified personnel. The administrator, however, serves at the pleasure of the board and would be responsible for supervising board members who served in this capacity.

Question

Is it permissible for a member of the Board of Emergency Medical Services to also be an employee thereof?

Opinion

We have reviewed K.S.A. 46-215 et seq. in its entirety and find no provisions which preclude the situation you have described. We would note that, applying the concepts of K.S.A. 46-233 and 46-246a, it would be inappropriate for the board members in that capacity to participate in any fashion in their own hiring, promotions, wage setting or discipline as employees. They must, therefore, avoid decision, approval, disapproval, recommendation and rendering advice on these issues.

Advisory Opinion No. 93-33

Written September 14, 1993, to the Honorable George Dean, State Representative, Wichita.

This opinion is in response to your letter of August 6, 1993, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state conflict of interest laws (K.S.A. 46-215 et seq.).

Factual Situation

We understand you request this opinion in your capacity as a state legislator and as a member of the board of the Kansas Technology Enterprise Corporation (K-TEC).

You advise us that as a legislator, you were appointed to be on the board of directors of K-TEC and have served on the board for a number of years. K-TEC is wishing to start an Innovation Center which will be a 501-C-3 corporation, a joint venture between Wichita-Sedgwick County Partnership for Growth (WISE), Wichita State University, K-TEC, and the Kauffman Foundation. The purpose for the center will be to start new companies and find commercial use for the research performed at the K-TEC Center of Excellence at WSU. You have been asked to help with the initial development and organization of the corporation and contract services to K-TEC. As a board member you will not be voting on the service contract or the salary. This is an administrative procedure that will be under the oversight of the K-TEC president, Bill Brundage.

Questions

- 1) Do the conflict of interest laws (K.S.A. 46-215 et seq.) apply to you in your capacity as a board member of K-Tec?
- 2) What restrictions or reporting requirements exist in your capacity as a legislator regarding the proposed contract?

Opinion

Pursuant to K.S.A. 74-8113, members of the board of K-TEC are exempt from the definition of "state officer or employee" as that phrase is used in K.S.A. 46-221. Thus, as a general rule the conflict laws contained in K.S.A. 46-215 et seq. do not apply directly to you in your capacity as a board member. We note, however, that K.S.A. 74-8101(e) states:

Members of the board of directors, in their dealings with enterprises that may receive financing through the corporation, shall declare any potential conflict of interest and abstain from voting prior to taking any actions relating to that transaction.

While this section is outside our jurisdiction, we do believe K.S.A. 46-215 et seq. is helpful in defining the phrase "potential conflict of interest." We would suggest the situation you descibe may well meet that test and, therefore, disclosure and avoidance of action is appropriate.

The only sections of K.S.A. 46-215 et seq. that might apply to the situation in your capacity as a legislator

are K.S.A. 46-233(b) and K.S.A. 46-238.

K.S.A. 46-233(b) states:

No individual shall, while a legislator or within one year after the expiration of a term as legislator, be interested pecunarily, either directly or indirectly, in any contract with the state, which contract is funded in whole or in part by any appropriation or is authorized by any law passed during such term, except that the prohibition of this subsection (b) shall not apply to any contract interest in relation to which a disclosure statement is filed as provided by K.S.A. 46-239, and amendments thereto.

K.S.A. 46-238 states:

No state officer or employee or candidate for state office or associated person shall charge to or accept from a person known to have a special interest a price, fee, compensation or other consideration for the sale or lease of any property or the furnishing of services which is substantially in excess of that which other persons in the same business or profession would charge in the ordinary course of business.

We understand from additional information you have provided our staff that none of the activities of the organizations you have described will include contracts between those entities and the state of Kansas. So long as this remains true, a disclosure statement is not required under K.S.A. 46-239. Should the factual situation change—that is, should any entity consider entering into a contract with the state—then a disclosure statement may be required.

We believe K.S.A. 46-238 is self explanatory, but if you have any questions concerning its application, do

not hesitate to ask for guidance.

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Tuesday, November 2, in the conference room of the Metropolitan Topeka Airport Authority Terminal, Forbes Field, Topeka, to consider the adoption of proposed changes in existing rules and regulations.

These regulations are proposed for adoption on a permanent basis. A summary of proposed regulations and the economic impact follows:

K.A.R. 28-15-35. Condition of certification. These amendments will separate the current drinking water and wastewater laboratory certifications into two separate certifications. The proposed amendments are designed to meet federally mandated revisions for the drinking water certification program without extending these more strenuous requirements to the areas of wastewater and solid and hazardous waste certification. The primary economic impact will be on laboratories that work in more than one area of analysis. This impact is reflected in K.A.R. 28-15-37.

K.A.R. 28-15-36. Requirements for certification other than field laboratories. The primary effects of this amendment is to remove the "Standards for Certification" and allow closer compliance with the required federally approved methods of analysis. References to field laboratory certification have been removed from this regulation and incorporated into new regulation K.A.R. 28-15-36a. This amendment will have no economic impact.

K.A.R. 28-15-36a. Requirements for certification of field laboratories. This is a new regulation incorporating the previous requirements of K.A.R. 28-16-36 concerning field laboratories. There is no economic impact.

K.A.R. 28-15-37. Fees. This regulation governing the fees for certification is being amended. The environmental laboratory certification program is fee supported. This amendment, prescribing the fees for laboratory certification, is being revised to attempt to recover the actual cost of the program. The fee structure has not been revised since 1985. Municipal, industrial, and commercial laboratories within the state of Kansas and commercial laboratories outside the state, certified by reciprocity, will bear the cost of certification through payment of fees. Exact cost to a private citizen cannot be determined since this state agency is not responsible for setting marketplace charges for environmental analysis.

Copies of the regulations and their economic impact statements may be obtained from the Environmental Laboratory Certification Program, Forbes Field, Building 740, Topeka 66620-0001, (913) 296-2383.

This 30-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed

(continued)

rules and regulations. All interested parties may submit written comments prior to the hearing to Stanley P. Sutton, Chief of Services, Laboratory Improvement Program Office, Kansas Department of Health and Environment, Forbes Field, Building 740, Topeka 66620-0001. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant limit any oral presentation to five minutes.

Department of Commerce and Housing

Permanent Administrative Regulations

Article 6.—HIGH PERFORMANCE **INCENTIVE PROGRAM**

110-6-1. Criteria for designation of a "qualified firm." To be designated a qualified firm, each firm shall meet the following criteria. (a) Each firm shall be a for-profit business enterprise subject to Kansas income or property taxes, or a combination of these

(b) Each firm shall be identified under at least one of the manufacturing standard industrial classification (SIC) codes, major groups 20-39, inclusive, as determined by the department of commerce and housing.

(c) Each firm shall not employ more than 500 full-

time equivalent employees (FTEs).

(1) For a firm which has been in existence for at least 12 months, FTEs shall be computed by dividing total hours for which wages were paid during the 12month period prior to application as a qualified firm by 2,080.

(2) For firms which have been in existence for less than 12 months, the divisor shall be computed at the rate of 174 hours per month. In addition, the firm shall provide written assurance that the firm will continue to employ not more than 500 FTEs during the 12month period for which the firm seeks designation as a qualified firm.

(A) Documentation shall be subject to audit by the

department of commerce and housing.

(B) Failure to adhere to the written assurance concerning FTEs shall result in retroactive cancellation of qualified firm status and retroactive cancellation of any tax credits and other benefits under the high performance incentive program.

(d) Each firm shall also meet one of the following

additional criteria.

(1) The firm shall provide an average wage above the average wage paid by other firms located in the same county which also employ no more than 500 FTEs and have the same two digit SIC code as determined

under subsection (b) of this regulation.

(A) In the event that a firm may be classifed by more than one SIC code, major groups 20-39, inclusive, then the average wage may be computed using only employees from one SIC product group, if and only if it can be documented through a cost accounting system that establishes wages paid to employees by separate product group. If this option is chosen, only investments in machinery, equipment and training that will benefit production for the identical SIC code shall count toward computation of tax credits and other benefits. Documentation of wages by product category shall be subject to audit by the department of commerce and housing.

(B) If a firm does not use a cost accounting system, then average wages shall be computed for all employees at a facility, and wage comparison will be made with the firm's dominant SIC code. The dominant SIC code shall be determined based on annualized sales by major product group category. In this case, all appropriate investments may count in computing tax credits and other benefits under the high performance incentive program. Supporting data shall be subject to audit by the department of commerce and housing.

(C) The average wage for two-digit SIC codes, by county, shall be determined from annual reports issued by the Kansas department of human resources, which list average wages by county and two-digit SIC codes. The most recent annual report at the time of a company's request for designation as a qualified firm shall constitute the final authority in determining average

wages by county and SIC code.

(D) The average wage shall be determined by using data from the 12 months prior to the period for which tax credits are being requested, or for the total number of months the firm has been in existence, whichever

period is shorter.

(i) Firms which have not been in existence for at least 12 months shall give written assurance that wage levels will remain at least as high as reported during the complete 12-month period for which the firm seeks designation as a qualified firm. Failure to adhere to this assurance shall result in retroactive cancellation of a firm's designation as a qualified firm, and retroactive cancellation of tax credits and other benefits under the high performance incentive program. Documentation shall be subject to audit by the department of commerce and housing.

(ii) Average wage shall be computed by dividing total FTEs, as determined under subsection (c) of this regulation, into total wages paid, including overtime pay, for the identical time period for which FTEs are computed. All supporting data shall be subject to audit by the department of commerce and housing

(2) The firm shall employ not more than 500 FTEs and shall be the sole firm of its type, by two-digit SIC code, in the county. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug.

17, 1993; effective Nov. 15, 1993.)

110-6-2. Authority for designating a qualified firm. The secretary of commerce and housing shall certify annually to the department of revenue that each firm designated to be a qualified firm is in compliance with K.A.R. 110-6-1. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993; effective Nov. 15, 1993.)

110-6-3. Definitions. (a) Cash investment.

(1) Cash investment means:

(A) wages paid to employees while participating in training or education, instructors' salaries, travel expenses, training manuals and textbooks, supplies, materials and other expenses related to curriculum planning, development and implementation; and

(B) reimbursement of tuition and other education and training-related expenses to employees for relevant

outside coursework.

(2) Final authority for determining which expenditures constitute a "cash investment" in training and (continued) education shall rest with the secretary of commerce and housing.

- (3) Monies or grants obtained from state, federal or other government sponsored workforce training programs shall not be included as a cash investment by the firm.
 - (b) Training and education.

(1) Training and education means non-production related activity for which an employee is either paid to participate or is reimbursed for expenses incurred, or both, and from which the firm expects to derive increased productivity or quality or both.

(2) On-the-job training shall not be considered training or education under the high performance incentive

program.

(c) Total payroll.

Total payroll means total wages and benefits paid to firm employees during the twelve months immediately prior to the period for which tax credits are being requested, or for the number of months the firm has been in existence, whichever period is shorter. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993; effective Nov. 15, 1993.)

- 110-6-4. Eligibility and application procedures for high performance incentives fund. (a) Each firm which meets the eligibility requirements to be a qualified firm under the high performance incentives program shall also be eligible for the high performance incentives fund.
- (b) To apply for funds from the high performance incentives fund, each firm shall submit the following information:

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10:30 a.m. Monday, November 1, in Room 11 of the State Defense Building, 2800 S.W. Topeka Blvd., Topeka, to consider the adoption of proposed rules and regulations of the

Division of Emergency Preparedness.

This 30-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may request a complete copy of the proposed regulation and may submit written comments prior to the hearing to the Adjutant General, KDEP, State Defense Building, 2800 S.W. Topeka Blvd., Topeka 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

These regulations are proposed for adoption on a permanent basis. A summary of proposed regulations

and their economic impact follows:

K.A.R. 56-2-1. Definitions. Defines the terms "local disaster agency," "division" and "coordinator" as used in regulation 56-2-2.

K.A.R. 56-2-2. Standards for local disaster agencies. Establishes standards for local ordinances/resolutions which establish local disaster agencies, requiring them to address essential functions to be performed as well as essential support to be provided to the agencies. Requires position descriptions for local disaster coordinators which address minimal levels of experience, skill and training. Outlines reporting requirements for local jurisdictions regarding arrangements for local disaster agencies.

Economic Impact Statement

K.A.R. 56-2-2 provides for minimum standards for the establishment of local emergency preparedness agencies. While the proposed regulation is not mandated by federal law as a requirement for participating in or implementing a federally subsidized or assisted program, the requirements of the Federal Emergency Management Agency's emergency management assistance program dictate that states establish standards and evaluation procedures to determine the level of emergency preparedness in each local jurisdiction. This regulation is being proposed as one method of supporting such a capability on the part of the state.

There will be no economic impact on this agency. Provisions in the regulation will require office space, communications and transportation support be provided to county coordinators. These requirements will require additional expenditures in no more than 10

percent of the counties in the state. Maximum initial costs would be no more than \$1000 with a maximum of \$500 annual recurring costs. Certification requirements for coordinators will affect approximately 30 percent of the counties; however, training costs for certification are provided to the counties by this agency from federal funds. Therefore, there will be no training costs to the counties for certification. Administrative costs to comply with the regulation will be nominal.

No other methods were considered by the Adjutant General for achieving the stated purpose of the

regulation.

This 30-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the Secretary of Social and Rehabilitation Services, Room 603-N, Docking State Office Building, 915 S.W. Harrison, Topeka 66612. All interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

The temporary Articles 4 and 6 regulations are scheduled to become effective December 1, 1993. The permanent regulations in Articles 4 and 6 (except K.A.R. 30-6-103 and K.A.R. 30-6-106) are scheduled to become effective 45 days after publication in the Kansas Register. The permanent Article 10 regulations and K.A.R. 30-6-103 and K.A.R. 30-6-106 are scheduled to become effective January 1, 1994. A summary of the proposed regulations and their economic impact follows.

The phrase "Federal Mandate" following an item indicates that the change is required by federal policy. Optional changes in regulations related to federal programs are subject to approval by the U.S. Department of Health and Human Services.

Temporary and Permanent Regulations Article 4.—PUBLIC ASSISTANCE PROGRAM

30-4-111. Applicable income. This regulation is being amended to increase the amount of the earned income deduction for stepparents, parents of a minor parent, or aliens who are parents of an AFDC child who are excluded from the assistance plan from \$75 to \$90. (Federal Mandate.)

Economic Impact: This change will result in an increased deduction for 22 persons and an increase in expenditures of approximately \$4,000 on an annual basis (\$1,615 state general funds).

Article 6.—MEDICAL ASSISTANCE PROGRAM—CLIENTS' ELIGIBILITY FOR PARTICIPATION

30-6-56. Transfer of assets. This regulation is being amended to make the following changes:

(1) The term "assets" replaces the term "property" and is more widely defined as meaning all income and resources of the individual and his or her spouse is cluding any income or resources which the individual or spouse is entitled to but does not receive because

of action by the individual, spouse, or other entity acting on behalf of the individual or spouse.

(2) The "look-back" period in which transfers must be reviewed for their effect on eligibility has been lengthened to 60 months for assets disposed of through a trust or 36 months for all other transfers. Such time period begins as of the date the person received or was otherwise eligible to receive assistance and has applied for medical assistance.

(3) A transfer of assets to a trust established for the benefit of an individual's disabled child or for the benefit of a disabled individual under 65 years of age shall

be exempt.

(4) The value of all assets transferred on or after the "look-back" period described above shall be considered in determining a period of ineligibility and if more than one period of ineligibility exists, they shall run consecutively.

(5) The period of ineligibility shall no longer be

capped.

(Federal Mandate.)

Other technical changes have also been made:

Economic Impact: It is expected that this change will result in 100 clients per year losing eligibility for assistance an additional 12 months resulting in a decrease in expenditures of \$1,600,800 (\$653,126 state general funds).

30-6-106. General rules for consideration of resources, including real property, personal property, and income. This regulation is being amended to delete the provision regarding consideration of a trust. This provision has been modified and added to K.A.R. 30-6-109 as indicated below. (Federal Mandate.)

Economic Impact: See the economic impact statement for K.A.R. 30-6-109.

30-6-109. Personal property. This regulation is being amended to add provisions regarding consideration of trust funds. The new provisions incorporate the following guidelines:

(1) Revocable trusts shall be considered available as resources for eligibility purposes. Payments made from

the trust shall be considered as income.

- (2) Irrevocable trusts in which payments can be made to or for the benefit of the individual shall be considered available as resources for eligibility purposes. Payments made from the trust shall be considered as income.
- (3) Irrevocable trusts in which no payments can be made under any circumstances shall be considered as a transfer of assets.
- (4) A trust shall be considered under these provisions if assets of the individual were used for forming all or part of the trust and if the individual, his or her spouse, or some other persons or entity established the trust.
- (5) The new provisions apply without regard to the purpose for which the trust was established, whether the trustees have or exercise any discretion under the rust, or any restrictions in the trust on when or whether distributions can be made or how they are used.

- (6) Certain trusts are exempted under the new provisions and not considered for eligibility purposes, including trusts established for disabled individuals under age 65 and trusts composed entirely of a person's income. Such trusts must include provision that the state receive all remaining amounts in the trust upon the person's death up to an amount equal to the total medical assistance paid on behalf of the individual.
- (7) The new provisions shall be waived in instances of undue hardship.

(Federal Mandate.)

Economic Impact: These changes are not expected to result in any substantive economic impact. Although the provisions permit greater latitude on the part of states to consider trusts as available resources, the exemptions written into law on trusts for disabled persons and income trusts are likely to also reduce the previous latitude allowed states for considering certain trusts. In essence, both issues are expected to counterbalance the other so that no new additional savings or increased expenditures are expected.

30-6-113. Income exempt as applicable income. This regulation is being amended to exempt for SSI purposes hostile fire pay received while in active military service. (Federal Mandate.)

Economic Impact: This change is not expected to have any discernible economic impact.

30-6-150. Estate recovery. This regulation is being amended to make two changes. First, estate recovery shall now be applicable to Medicaid recipients who are 55 years of age or older. Secondly, a provision has been included to waive recovery in instances of undue hardship. (Federal Mandate.)

Economic Impact: These changes are not expected to have any discernible economic impact.

Permanent Regulations Only

Article 4.—PUBLIC ASSISTANCE PROGRAM

30-6-103. Determined eligibles; protected income levels. This regulation is being amended to increase the one-person protected income level for persons in independent living and in the home- and community-based services program from \$434 to \$447 per month. This is based on a projected 2.9 percent cost of living adjustment in the Supplemental Security Income (SSI) program which will become effective January 1, 1994. (Federal Mandate.)

Economic Impact: The change in the one-person level is not expected to have any discernible economic impact.

30-6-106. General rules for consideration of resources, including real property, personal property, and income. This regulation is being further amended to increase the maximum income allowance a community spouse can receive from an institutionalized spouse to \$1,800 per month. This increase reflects a projected 20 percent increase in the consumer price index from September 1988 to September 1993 and is calculated from the original \$1,500 per month maximum property.

(continued)

mum allowance contained in section 1924(d)(3)(C) of the Social Security Act. (Federal Mandate.)

Economic Impact: It is expected that this change will result in increased expenditures of \$37,208 (\$15,177

state general funds).

This regulation is being further amended to increase the minimum and maximum property allowances a community spouse may have to \$14,400 and \$72,000 respectively. This increase reflects a projected 20 percent increase in the consumer price index from September 1988 to September 1993 and is calculated from the original \$12,000 and \$60,000 allowances contained in section 1924(f)(2) of the Social Security Act. (Federal Mandate.)

Economic Impact: This change is not expected to have any discernible economic impact.

Article 10.—ADULT CARE HOME PROGRAM

30-10-1a. Nursing facility program definitions. This regulation is being amended as follows:

- (1) The procedure for reimbursing oxygen which was included in the "ancillary services and other medically necessary services" definition is being moved to K.A.R. 30-10-15a, the more appropriate regulation section.
- (2) New definitions are being added for case mix, case mix index, cost report, on-going entity, recipient, and resident assessment form.

(3) The definition for "projection status" is being deleted since it will no longer be applicable.

(4) Clarification is being added to the definition of "related parties" to include transactions that are designed solely to inflate Medicaid/Medikan costs. The following statement is being deleted: "Transactions or agreements that are illusory or a sham shall not be recognized."

Economic Impact: See the economic impact statement for K.A.R. 30-10-18.

30-10-1b. Nursing facilities. This regulation is being amended to add clarification to "change of provider" to state that only bona fide transactions or agreements shall be recognized as a change. Further, an owner of the nursing facility who assumes the operation from a lessee shall not be recognized as a change of provider.

Economic Impact: None.

30-10-1c. Provider agreement. This regulation is being amended to add clarification that only parties signing a provider agreement shall have the right to enforce the agreement.

Economic Impact: None.

30-10-1d. Inadequate care. This regulation is being amended to substitute "recipient" for "resident" and to clarify that payments can be suspended or terminated for Medicaid/Medikan recipients when inadequate care is provided or there is a violation of a recipient's rights.

Economic Impact: None.

30-10-2. Standards for participation; nursing facilities and nursing facilities for mental health. This regulation is being amended to include in the regulation

the time lines for completing and submitting the resident assessment form, the method of submitting the form and a provision for requesting an extension for submitting the assessment form. The penalty for failure to submit the resident assessment forms is added to the regulation.

Economic Impact: None.

30-10-11. Personal needs fund. This regulation is being amended to add the provisions and procedures for suspending payments when providers are not following the personal needs fund regulation.

Economic Impact: There is no fiscal impact to the regulation since payments will be released after providers take corrective action.

30-10-15a. Reimbursement; payment for services. This regulation is being amended to move the procedure for reimbursing oxygen from the definition section in K.A.R. 30-10-1a to payment for ancillary services in K.A.R. 30-10-15a.

Economic Impact: There is no fiscal impact since the procedure for reimbursing oxygen is not being changed.

30-10-17. Cost reports. This regulation is being amended to change reference to the new December 1993 version of the cost report and instructions. "Projection status" is being deleted and "cost data from the previous provider or a projected cost report" is being added. Clarification is being added for the historical cost report period for new providers and providers operating on interim rates from a projected cost report. The references to a projection status period and settlement are being deleted. The provision for filing an amended cost report when the error or omission affects a current or future accounting period of the provider is being deleted.

The cost report instructions are being revised to clarify the treatment of computer software lease expense and revenue offsets. The instructions for the private pay rates are being deleted but instructions are being added for the Employee Turn Over Report. The cost report is being revised to replace Schedule J-Private Pay Rates with the Employee Turn Over Report.

Economic Impact: The fiscal impact of not making a settlement for a new provider when they operate on the rate of the previous provider is included in K.A.R. 30-10-18. The fiscal impact for the other changes is minimal.

30-10-18. Rates of reimbursement. This regulation is being amended to include minor word changes. Other reimbursement factors for the minimum wage adjustment and Omnibus Budget Reconciliation Act requirements are being deleted since they are no longer applicable.

The method of using resident days in the rate computation is being moved from K.A.R. 30-10-28, resident days, to the more appropriate section in the regulations. Clarification is being made that when a new provider assumes the rate of the previous provider, and the 85 percent minimum occupancy rule was applied in computing the rate for the previous provider, then it will also apply to the rate of the new provider.

The method of phasing in the case mix payment rate on January 1, 1994, is being added to the regulation. There will be a hold harmless provision until June 30, 1994. There is an explanation for how the case mix payment system will change on July 1, 1994. There is a provision for a situation when the resident assessments used to determine the case mix index cannot be classified.

The section on "comparable service rate limitations" has significant revisions. A new private pay rate registry will be established for tracking purposes. Providers will notify the agency by certified mail when private pay rates change. This notification will be used to update the registry. Whenever a new Medicaid/Medikan rate is determined for a provider, the private pay rate in the registry will be substituted, if it is lower. There will no longer be a grace period for increasing a private pay rate to meet or exceed the Medicaid/Medikan rate. The criteria for determining the comparable private pay rate is included in the regulation. Further, if the private pay rate charge is consistently lower than what is actually received from the resident, the amount received will be substituted for the charge.

Clarification is being added that the interim rate for a new facility to the Medicaid/Medikan program shall

be based on a projected cost report.

Clarification is being added that when the rate for a new provider is based on the previous provider's rate, it shall be subject to the 85 percent minimum occupancy rule if it applied in computing the previous provider's rate. A new provision is being added that the old provider's rate must be less than the statewide average rate in order for a new provider to request being allowed to file a projected cost report for an interim rate.

The regulations are being changed to delete the provision that a new provider operating on the previous provider's rate is subject to a retroactive settlement for the first 12 months of operation. The only time there is a retroactive settlement for the first 12 months of operation is when a provider operates on an interim rate from a projected cost report.

The number of days to request an administrative review of an audit report has been changed from 15

to 30.

The provision that a provider re-entering the program after being out less than 24 months could file a projected cost report for an interim rate if the previous rate was not sufficient is being deleted.

Economic Impact: Case Mix Payment System: The estimated cost of the hold harmless provision for the case mix payment system is \$148,000 (\$65,000 state general funds). There will not be a hold harmless provision after June 30, 1994. This is one-time funding that was appropriated by the 1993 Legislature for phasing in the case mix payment system.

Private Pay Rate Register: The estimated savings of implementing the private pay rate register could be as high as \$422,000 (\$186,000 state general funds). This estimate is being based on the number of providers who had lower private pay rates on file than the July 1, 1993, Medicaid/Medikan rate. The variance between

the July 1, 1993, Medicaid rate and the private pay rate on file was multiplied by the estimated number of Medicaid days in the affected nursing facilities for a month. It is assumed that providers will only be held to a lower private pay rate for one month.

The current system allows a grace period for providers to raise the private pay rate to meet or exceed the Medicaid rate. The private pay rate register will be used to determine whether or not the Medicaid rate should be lowered to the private pay rate and will eliminate the grace period. The estimated savings will most likely be limited to one time. As providers become aware of how the register impacts the Medicaid rate, they will be more likely to keep agency staff

informed of their curent private pay rates.

Elimination of Retroactive Settlements for New Providers: The estimated savings for not making retroactive settlements for the first 12 months of operation for a new provider assuming the rate of the previous provider is \$894,000 (\$393,000 state general fund). The estimate is based on 11 settlements for new providers from July 1, 1992 through June 30, 1993. It should be noted that there were no recoupments for overpayments to any new providers during this time period. The estimate can vary significantly based on the number of new providers assuming the rate of the previous provider during a fiscal year.

30-10-19. Rates; effective dates. This regulation is being amended to clarify the rate effective date of ongoing providers who file calendar year cost reports.

The rate effective dates for a new provider operating on the rate from the cost data of the previous provider is included in this regulation. The rate from the first historic cost report filed may involve a short retroactive adjustment to the rate that was paid after the end of the cost report period.

The rate effective dates for providers receiving rates from projected cost reports are being clarified in the

regulation.

A significant change is the January 1, 1994, rate notice for the implementation of the case mix payment system. These rates may be adjusted quarterly based on changes in the average case mix for the facility from previously submitted assessments.

The reference to federal regulations is being deleted. Economic Impact: Minimal economic impact.

30-10-23a. Non-reimbursable costs. This regulation is being amended to expand the list of non-reimbursable costs to include:

- (1) Personal expenses not directly related to resident care;
- (2) management fees paid to related organizations that are not based on actual costs;
- (3) business expenses not directly related to resident care; and
- (4) legal and other costs associated with litigation between the provider and state or federal agencies unless the litigation is decided in favor of the provider.

Economic Impact: There is no fiscal impact since these procedures have been agency policy.

(continued)

30-10-25. Real and personal property fee. This regulation is being amended to delete the provision concerning treatment of gains on the sale of depreciable

Provisions in rebasing the real and personal property fee are being clarified. The provisions include:

(1) Limiting the costs to those reported in the ownership cost center and not allowing interest expense reported in the administrative cost center;

(2) explaining the resident days used in computing the property allowance for a rebasing; and

(3) explaining the array to be used in computing the value factor.

Eonomic Impact: There is no fiscal impact since the provisions have been agency policy.

30-10-28. Resident days. This regulation is being amended to move the 85 percent minimum occupancy rule used in computing rates from this regulation to K.A.R. 30-10-18, which is the more appropriate section.

Economic Impact: None.

Copies of the regulations and their economic impact statements may be obtained from the Office of the Secretary, Room 603-N, Docking State Office Building, 900 S.W. Harrison, Topeka 66612, (913) 296-3969.
